

Letter from the MHOAA President

February – March 2007

I would like to take this opportunity to bring all members and prospective members up to date on our activities. Our 2007 annual meeting is going to be held in [Minnesota](#) and the dates that are being proposed right now are 14th -17th of September. The good people of [Minnesota](#) are working very hard to put on a first rate program. When the plans are further along we will post it on the website.

This year we are having conference calls with the board members, which seems to work out very well. We had our first one a few weeks ago and hope to have another in March. If any member state has something they want brought up please send your information to [Bob Bossé](#).

I personally would like to thank [Paul Bradley](#) for all the help he is giving to us. He and Cheryl came to our board meeting here in Florida. In addition, he arranged for some of our members to go to Atlanta to learn more about our business.

It is with a heavy heart that I have to inform all of you about the passing of Don Hazelton. Don was a leading activist not only in Florida but also around the country for mobile home dwellers. I had the great pleasure of working with Don here in Florida both as his vice president and as president of the FMO. Don and I spoke just about everyday about Manufactured Home living. We here in Florida are now learning how to go on without Don at our side. I know many of you never met him but I am sure a lot of you have talked to him. We sure miss you Don.

I hope some of you from states that are not members will work on becoming members. We all know that to go it alone is tough but as a group, we can make sure that our voices are heard loud and clear. We are trying to keep the website up to date but if you are unsure about anything you can contact [Bob Bossé](#) to get the additional information you may need. We would like everyone that can make it to be at the annual meeting, so please plan on attending. I know you will get a lot out of it and the great people of [Minnesota](#) are working very hard to make sure it goes smoothly.

Thank You

Charlie Gallagher, President

Manufactured Home Owners Association of America
