

Letter from the MHOAA President

January – February 2007

I would like to take this opportunity to thank all those who attended the Manufactured Home Owners Association of America annual meeting in [New Hampshire](#). It was a great meeting and hopefully we have set the wheels in motion to help build a better association. This past year found us welcoming some new states into the fold Washington, Rhode Island and [Minnesota](#) have joined our association. While Wisconsin has not as yet rejoined they have had Kris attend and be a participant in our meetings. We have also been very lucky to have [The Meredith Institute](#) join our association. [MOTA New Hampshire](#) put on a great program with the financial and logistical help from the [Meredith Institute](#) and it was greatly appreciated by all who attended.

It was a great annual meeting but unfortunately Ed Speraw was not able to be there due to health issues in his family, so I had to stand in for him. To the best of my knowledge Ed and his family are doing better. As your new president, I will strive to keep on improving the association and bring in more new members. It is my hope we can have better communications on the board level and more information going out via a newsletter and the newly redesigned website. We have some new members on the board from Rhode Island and [Minnesota](#) and hopefully their input will help strengthen the association further. The more states we get to join the association the more ideas we have to draw on which we hope will lead to a better association.

Bob Bossé and the good people in [Minnesota](#) will keep you up to date on next years annual meeting. From what I have heard it sounds like they are really going to try and out do [New Hampshire](#), which will be hard to do. Again, I want to thank all who attended the Manufactured Home Owners Association of America annual meeting this past fall and I will try to keep you updated via the website every couple of months.

Thank You

Charlie Gallagher, President

Manufactured Home Owners Association of America
