

Letter from the MHOAA President

September 2007

We are now approaching the end of another year and 2007 has been a good year for our association. The MHOAA annual meeting in Minnesota was fantastic and it is my hope we can keep the momentum going in 2008.

We have been working closely with APAC and if all goes well we will be getting a grant to help MHOAA improve its membership. In addition, APAC has offered to provide assistance with the MHOAA annual meeting in 2008. I hope that I will know more about this by the end of December and I will try and provide our members with updates via the website and in the newsletter.

Since the annual meeting, there has been one board meeting by conference call and we hope to have more of them in the near future. The conference call style meetings allow us to be able to keep up to date with those issues that are affecting our members and those that are not yet members of our national association.

The MHOAA Board of Directors is committed to making every effort in the coming year to strengthen our organization by reaching out to more people. It is our hope that these efforts will allow our association to grow into a stronger national organization, which has at it's core value, the health and well being of all people living in manufactured housing in the United States.

On behalf of all of our members and Board of Directors, I would like to wish everyone a Pleasant & Happy Holiday Season and may we all look forward to a prosperous New Year in 2008.

Thank you all for your support in 2007.

Charlie Gallagher, President
Manufactured Home Owners Association of America
